ABOUT US

Pantax Engineering is a mechanical engineering company specializing in solutions for the mining and industrial sectors. We deliver innovative, efficient, and reliable services that enhance operational performance, ensure safety, and drive sustainable growth. Founded on the principles of innovation, integrity, and excellence, we combine technical expertise with cutting-edge technology to meet the evolving needs of our clients.

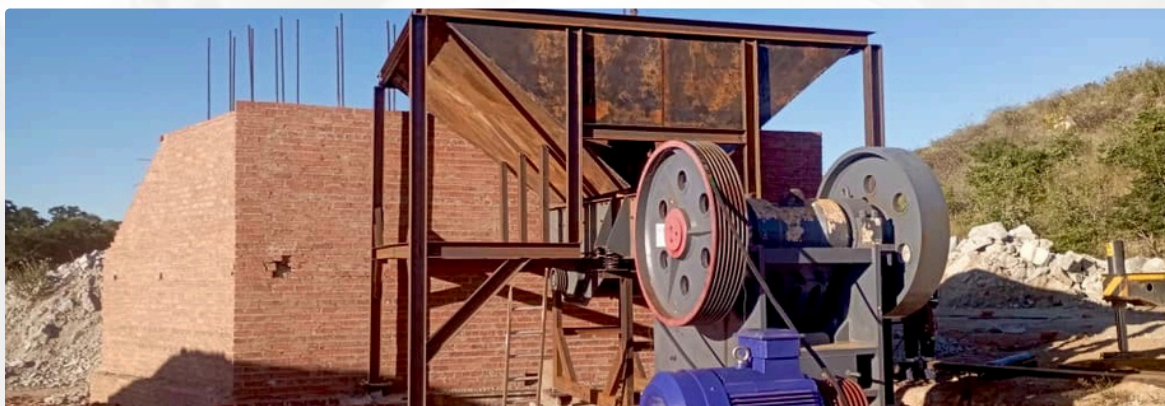

PANTAX ENGINEERING

VISION

To lead the future of mechanical engineering through innovation and technology — delivering advanced, efficient, and sustainable solutions that redefine performance in mining and industry.

MISSION

Pantax Engineering delivers innovative and dependable mechanical solutions for the mining and industrial sectors. We drive efficiency, safety, and sustainability through expert engineering and a commitment to excellence.

PANTAX ENGINEERING

WHAT WE DO

**Pantax Engineering provides a comprehensive range of mechanical engineering services, including:
Design, machining, fabrication, and installation of machinery and equipment**

1.Fabrication

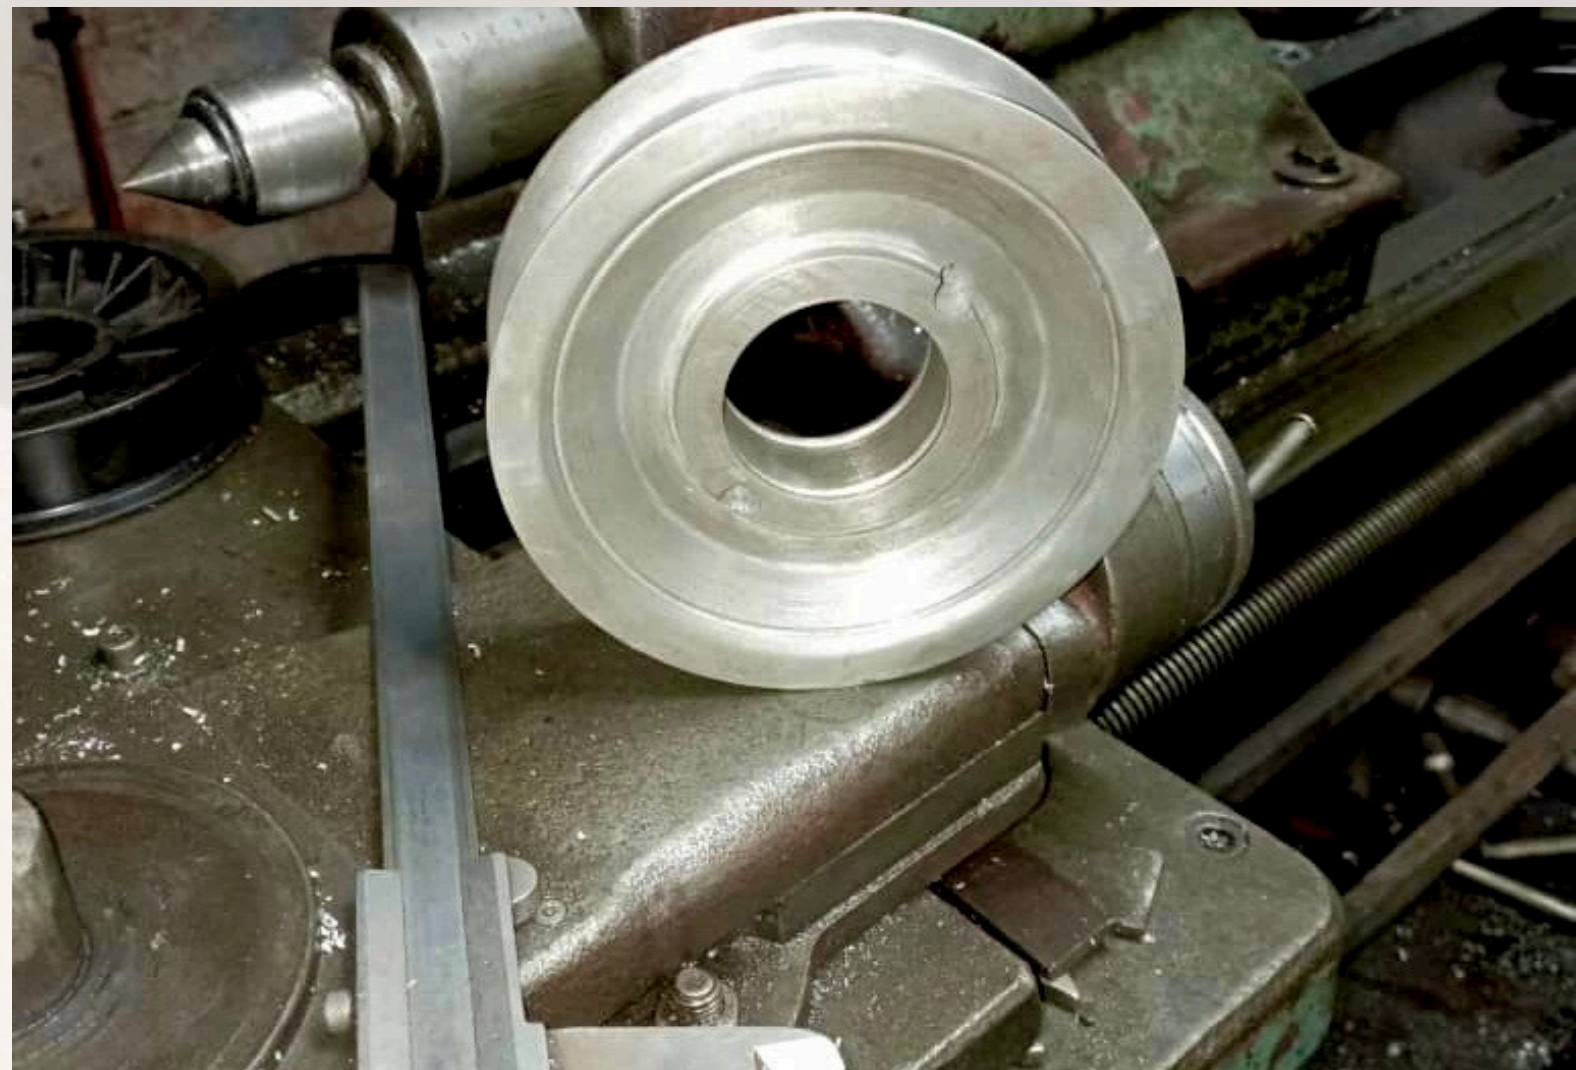

PANTAX ENGINEERING

2. Precision Machining and Fitting

We provide high-accuracy machining and fitting services, ensuring precise components and reliable mechanical performance.

PANTAX ENGINEERING

3. Maintenance and Repair Solutions for Industrial and Mining Plants

We offer efficient maintenance and repair services to keep industrial and mining equipment operating at peak performance and minimize downtime.

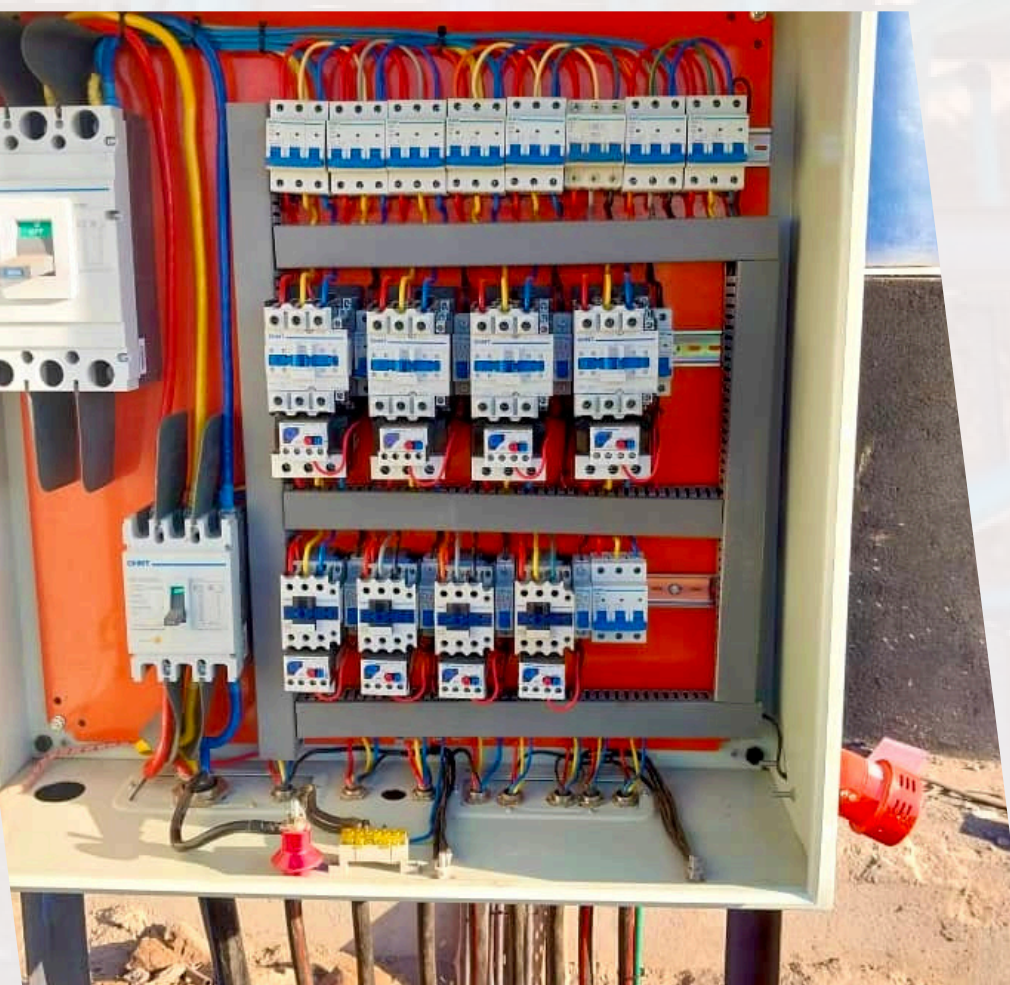

4. Technical consultancy and project management

We offer expert technical advice and end-to-end project management services, ensuring efficient execution, cost control, and quality results across all projects.

5. Electrical and Civil Works

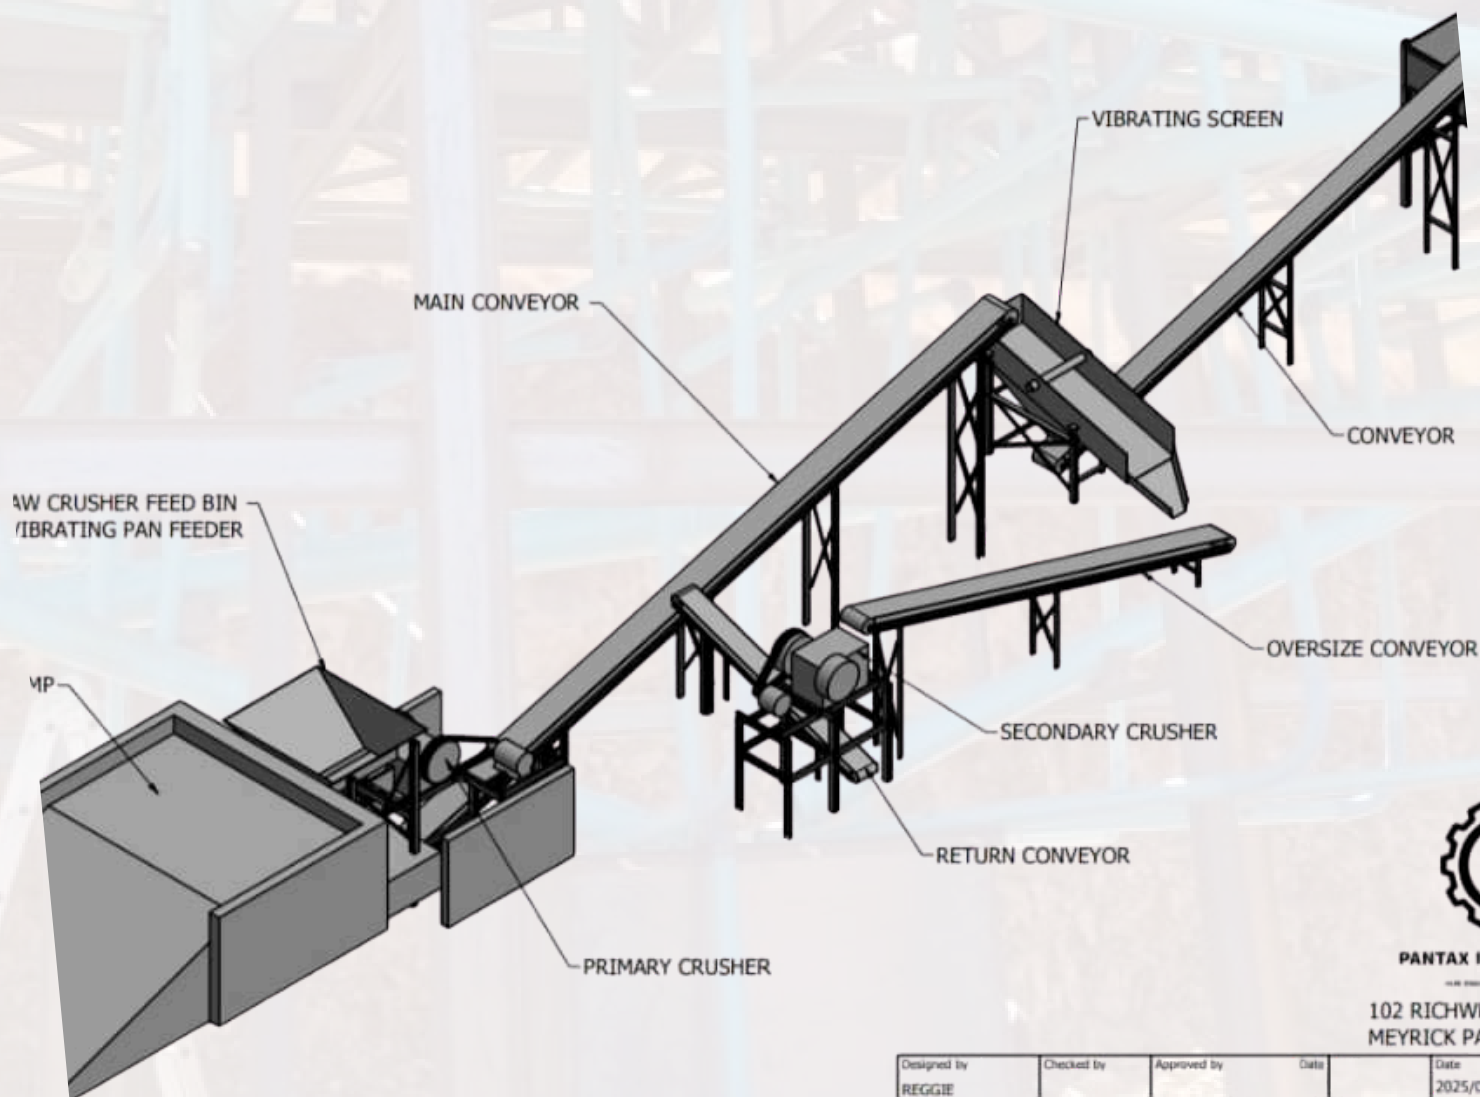

We undertake a wide range of electrical and civil projects, delivering safe, efficient, and high-quality installations and infrastructure solutions.

6. Plant design, build and commission

We design, construct, and commission industrial plants, providing complete turnkey solutions tailored to meet client specifications and operational goals.

			Edition	

PANTAX ENGINEERING

7. Mechanical spares supply

We supply high-quality mechanical spare parts, ensuring reliable availability and optimal performance for industrial and mining equipment.

PANTAX ENGINEERING

CLIENTELE / PARTNERS

Our success is built on strong partnerships and lasting client relationships. We are proud to have collaborated with a diverse range of organizations that trust our expertise and commitment to excellence.

Mining Companies:

- ZMDC
- Acturus Stone Quarry
- Various Small Scale Miners

Industrial plants

- Universal Cotton Processors
- Colcom Foods
- Cairns Foods

Engineering Partners

- Golden Tripod
- Pioneer Engineering

PROJECTS

Our company has successfully executed a range of industrial and mining projects, delivering end-to-end solutions from design to commissioning. Each project reflects our commitment to quality, efficiency, and technical excellence.

20tph Gold Processing Plant

Client: Dero mining

Location: Kasempa,
Zambia

Scope Design and build
project including 2
crushers 2 ball mills, ore
bins and 12 tank CIP
plant

PANTAX ENGINEERING

HEALTH, SAFETY, AND ENVIRONMENTAL COMMITMENT (HSE)

Pantax Engineering is committed to:

- Maintaining a safe workplace for employees and clients
- Following environmental sustainability best practices
- Adhering to local and international safety standards

PANTAX ENGINEERING

CONCLUSION

We remain dedicated to driving growth and innovation within the mining and industrial sectors. Through quality engineering, reliable execution, and lasting partnerships, we continue to deliver projects that add real value to our clients and communities.
